From (Name) Sri. T.A.Narasa Reddi, B.A.,
(Designation) Commissioner, Bellary Municipality.

To The Secretary to the Government of Madras,
Education and Public Health Department.
MADRAS.

Through
Janab D.Abdul Rawoof Sahib Bahadur, B.A.B.L., M.L.A.,F.A.U.
Chairman,Municipal Council, Bellary.

Sir,

Bellary municipal water supply system consists of 181 public fountains distributed in various places over an area of 10.9 Sq.miles. In the Fort and Cantonment area the Public fountains are distributed at long distances and it is found essential to post separately a fitter to be in charge of this area alone. The Fort and Cantonment scheme was executed in the year 1937 and the Government was addressed to sanction a separate fitter for the above area. But the Government declined to sanction the same and the council was directed to utilize the services of the existing fitters. There are only two fitters whose services are barely sufficient to the

supervision of the 156 fountains in the Brucepet and Cowl Bazaar areas. It was therefore considered that the Mechanic who was solely incharge of the Booster pumping station can be utilised for the purpose and he was ordered to work after the same from February 1939. He was not paid any conveyance allowance so far though he maintained a cycle for discharging his duties. Hence the Water Works Standing Committee in its resolution No.32 dated 5-3-40 on his requestresolved to give the Mechanic a conveyance allowance of Rs.3/- per mensem with effect from 1-4-39 (vide copy enclosed) and to continue him to look after the duties of supervision of public fountains in Fort and Cantonment area.

Rs 3 p.m.

I therefore request Government to kindly approve of the above proposal and to sanction the conveyance allowance to the Mechanic in charge of the Booster Pumping station at an early date.

A copy of the resolution is enclosed for favour of your information.

GOVERNMENT OF MADRAS 7 - JUL 1940 PUBLIC

27365

READ the following:—

Letter No.650-C dated 21st June 1940 from the Superintending Engineer (Public Health), Madras, to the Chief Engineer, P.W.D.

Allowance - Conveyance allowance - Mechanic in charge of public fountains in the Fort & Cantonment area of the Bellary Municipality.

Ref.: E. & P.H. Endt. No.21576 E.2 P.H. dated 3-6-1940 and Chief Engineer's Endt. No.2355-AD/40-1 dated 11-6-40.

As the Electrician Mechanic in charge of the Booster station is the only man at the station, it is not desirable to entrust him with other duties. Since the extension in the Fort and Cantonment areas covers only a small portion of the distribution system, the existing fitters of whom there are two, should be able to attend to the work in this area also. The question of grant of cycle allowance to the Electrician would not then arise.

Submitted to Government with reference to their endorsement No.21576-E2-1 P.H. dated 3rd June 1940.

2. I agree with the Superintending Engineer (Public Health) that it is not desirable to entrust the mechanic in charge of the Booster Pumping Station, with other duties as he is the only man at the pumping station. He should therefore be relieved of his additional duties immediately.

3. I also concur in the remarks of the Superintending Engineer (Public Health) that the existing fitters should be able to attend to the supervision of the public fountains

in

in the Fort and Cantonment areas, as the extension of the water supply scheme in these areas covers only a small portion of the distribution system.

4. Till the mechanic is relieved of his additional work, I consider that he may be granted a cycle allowance of Rs.3/- per mensem from 1st April 1939 as recommended by the Water Works Standing Committee of the Bellary Municipal Council.
